EDUCATION

University of North Carolina at Chapel Hill | Chapel Hill, NC

May 2028

B.S. in Computer Science, B.S. in Statistics and Analytics, Minor in Business | Honors Carolina, Dean's List

- **Relevant Coursework:** Systems Fundamentals, Discrete Math, Methods/Models of Data Science, Foundations of Programming, Data Structures & Algorithms, Calculus III, Linear Algebra, Introduction to Business
- **Clubs:** CS + Social Good, App Team Carolina, Carolina Skylab (Drone Team), Velocity Labs, Carolina Investment Group, TEDx

SKILLS

Technical Skills: Python, Java, C/C++, SQL, JavaScript, Swift, HTML/CSS, Machine Learning, Generative AI (LLMs, NLP, Computer Vision), Agentic AI, AWS (Bedrock, Lambda, EC2), Google ADK, MCP, Git, MongoDB, JSON, REST APIs, React, Tableau, CI/CD

Certifications: AWS Certified Solutions Architect, AWS Certified Machine Learning Engineer, AWS Certified AI Practitioner, Google Generative AI Leader, Anthropic AI Fluency, Duke Machine Learning for Product Managers, Hugging Face Open Source Models

EXPERIENCE

Amazon Web Services (AWS), Solutions Architect Intern | Arlington, VA

May 2026 - Aug 2026

- Built an AI Ad Copy Generator web app for performance marketing teams using **Amazon Bedrock AgentCore**, Bedrock Guardrails, and a **5-agent architecture**, generating 20+ on-brand ad variations through an authenticated end-to-end workflow, flagging **over 90% of restricted terms**, and exporting platform-ready CSVs in **under 5 minutes**
- Co-authored a PR/FAQ and led development of Quick Suite Vertical Demo Packs, a 5-industry demo system on the Quick Sprint model, built on multi-agent ATC/AIRE architecture
- Presented to senior AWS leadership in NYC and secured green light to **cut SA demo-prep time from 30-60 mins to <5 mins**, targeting **85%+ install conversion**

Arthmetis, Artificial Intelligence Intern | Charlotte, NC

Jun 2025 - Aug 2025

- Developed a hybrid retail recommendation engine using **Python, LangChain, FAISS, and GPT-4**, combining semantic search with customer demographics, purchase history, location, and seasonality to generate personalized product recommendations
- Trained an **XGBoost purchase-propensity** model on 50K+ customer-product interactions, incorporating behavioral, demographic, product, and vector-similarity features to improve top 3 recommendation precision by **25%**

UNC Charlotte, Data Science Researcher | Charlotte, NC

Feb 2024 - Jun 2026

- Co-authored **2 data science studies** examining racial disparities, analyzing a 5,000-stop sample from **124K Charlotte traffic stops** and statewide school discipline across **all 100 NC districts** using Python, CODAP, data visualization, and inference
- Published **NSF-supported findings to TEEM** and presented findings to educators at NCCTM State Conference, finding certain drivers were **2.4x more likely to be searched** and made up 56% of stops despite comprising 33% of Charlotte residents

PROJECTS

Case Closed | Duke AI Hackathon 1st Place Winner [Productivity & Enterprise Tools Track] - Backed by 1789 Fund

Nov 2025

- Developed an **AI-powered legal research tool** using **multi-agents** to analyze court documents and recommend precedents through an interactive chat-based frontend with a modular backend **via Python, Vertex AI (Gemini 2.5 Pro), and REST APIs**
- Won 1st among **220+ competitors and 34 professors/industry judges** and secured backing from UNC's 1789 Venture Fund

Financial News Sentiment Analysis | Personal Project

Oct 2025

- Fine-tuned a **BERT transformer model** using **PyTorch and Hugging Face** on 2,264 labeled financial-news statements, achieving **96% validation accuracy** to evaluate positive, neutral, and negative predictions that inform stock trades
- Engineered and benchmarked Bag-of-Words, LSTM, GPU-accelerated PyTorch and BERT sentiment pipelines with fine-tuning

AWARDS & LEADERSHIP

- **Eagle Scout**, Scouting America, (active since 2013) 32 Merit Badges, Gold Eagle Palm. Led 181-hour Eagle Service Project
- **Charlotte's 20 Under 20**, *The Dean's List*; **TEDx Speaker** - The Velocity Paradox, *TEDxUNC* (Feb 2026)
- **Anthropic Claude AI Hackathon 1st Place Winner**, *Anthropic*, built an interactive gamified stress-relief productivity app
- **4th Place National Leadership Conference**, *FBLA*, Website Design; **2x FBLA State Champion - 1st Place**
- **Y Combinator** Startup School 2026, Selected for a competitive summit for top founders featuring OpenAI, NVIDIA, and Stripe
